- ♦ 30-day delay in Ordinance effective date

## **January 24, 2019 Planning Commission Work Session Goal:**

The goal of the January 24th work session is for the Donald Planning Commission to arrive at a general consensus on the preferred boundary of a new Downtown Mixed-Use Zone district. Staff will then take the preferred boundary map to a Public Open House to gather feedback from local businesses and residents prior to public notices, public hearings and eventual adoption.
